WHY MATIGNON?

It is a question our prospective families ask us all the time—

You might assume it is because of our commitment to academic success and student development.

You might guess it's because our alumni are recognized for their diverse talents as accomplished leaders in the fields of politics, healthcare, law, science, education, and the arts among others.

You might even imagine it's because of our outstanding faculty who are passionate about all things teaching and learning.

But we believe the most remarkable thing about Matignon is something else entirely.

We believe it is our ability to help students learn beyond the classroom, develop the tools to become involved and engaged citizens with a clear sense of belonging, and positively impact the world.

LEARN BEYOND THE CLASSROOM

We Bring The World To Our Students and Our Students Out Into the World.

The Cambridge Matignon School embraces real-world learning as an integral aspect of its academic curriculum and student programs. We ask our students to be inventive problem solvers, persevere through difficulties, and find their passion and purpose in life. Matignon partnerships are an unparalleled approach to learning that involves working with community partners and industry experts to engage our students in authentic, relevant problems, projects, and experiences that develop career awareness and readiness.

“ Through being on the Mock Trial Team and talking with my teachers at Matignon, I have started on a pre-law track. Along with that, I have entered the field of journalism. Last year as a sophomore, I was given the opportunity through my theology teacher to work as an ambassador for Springtide Research Institute. Through that, I was able to publish articles about different topics in the Washington Post and Wall Street Journal. I am currently working as a freelance author. I hope to continue with this and the pre-law track in the future. ”

“ I am doing an internship through the Experiential Learning Seminar, which has helped me grow my passion for psychology. In the Fall, I will be attending Tufts. I am going to study psychology with a minor in child development. I plan to go on to do research or possibly be a therapist. I want to continue to grow and learn in the psychology field. Matignon helped open the door, and I love everything about it. ”
